Jan 15, 2026

Nagamani Teja Vallamkonda

has successfully completed the online, non-credit Professional Certificate

IBM AI Product Manager

Individuals with this Professional Certificate have showcased their proficiency in AI Product Management. Through engaging in hands-on projects, certificate holders have demonstrated their competence in guiding the development process, conducting analysis, testing, and ensuring the successful launch of AI-powered products. They have also demonstrated their competency in product management principles. By using Generative tools hands-on, like DALL-E, and ChatGPT, and applying prompt engineering approaches like Interview Pattern and Chain of Thought, the Certificate holder has displayed proficiency required to become an AI Product Manager and build AI products effectively.
